Correction: A novel benzoxazine/cyanate ester blend with sea-island phase structures

Xiaodan Li, Xiaoyong Luo and Yi Gu

The scale bar shown in the SEM pictures of Fig. 1 is incorrect and should read 10 μm instead of 10 m. The amended version of Fig. 1 is shown below:

Fig. 1  SEM phase morphology of C-BOZ/BADCy blends: the uncured, cured at 120 °C for 10 h and etched in acetone for 0.5 h of the 5/5 blend (a1, a2 and a3), the 7/3 blend (b1, b2 and b3), the 8/2 blend (c1, c2 and c3) and the 9/1 blend (d1, d2 and d3).

The Royal Society of Chemistry apologises for these errors and any consequent inconvenience to authors and readers.
