Correction: A desferrioxamine B squaramide ester for the incorporation of zirconium-89 into antibodies

Stacey E. Rudd, Peter Roselt, Carleen Cullinane, Rodney J. Hicks* and Paul S. Donnelly*

The authors regret that a significant reference was omitted from the original article. A citation to work by Gasser, Mindt and co-workers should have been included in the first page.

“The addition of an extra hydroxamic acid functional group to give an octadentate variant called DFO* resulted in improved stability of $^{89}$Zr$^+$ complexes but the ligand suffers from limited solubility in aqueous environments." 1

The Royal Society of Chemistry apologises for these errors and any consequent inconvenience to authors and readers.
