Correction for 'Post-functionalized iridium–Zr-MOF as a promising recyclable catalyst for the hydrogenation of aromatics' by Antonia M. Rasero-Almansa, *et al.*, *Green Chem.*, 2014, **16**, 3522–3527.

*Green Chemistry* is issuing this correction, with agreement from the authors, to notify readers of the reuse of figures in the article and Electronic Supplementary Information from previous articles published by the same author group. The images were duplicated with the intention to assist readers by providing characterisation data for the precursors, post-functionalised ligand and functionalised Ir-MOF complex. The same materials were used for all publications.

Footnotes are added to Fig. 1a†, S2‡, S3–S5‡, S6†, S8§ and S9†.

The Royal Society of Chemistry apologises for these errors and any consequent inconvenience to authors and readers.
