Correction: Frustrated phases under three-dimensional confinement simulated by a set of coupled Cahn–Hilliard equations

Edgar Avalos,* Takeshi Higuchi,* Takeshi Teramoto,† Hiroshi Yabu* and Yasumasa Nishiura*

Eqn (1) presented a typo in the integral. Please see below for the correct equation:

$$ F = \frac{1}{\Omega} \sum_{\alpha} \left( \frac{\nabla^2 u}{2} + \frac{\nabla^2 v}{2} + W(u, v) + \frac{\sigma}{2} \right) \left( -\lambda \left( v - \bar{v} \right) \right)^2 dr $$

The Royal Society of Chemistry apologises for these errors and any consequent inconvenience to authors and readers.
