Correction for ‘Development of highly active anti-*Pneumocystis* bisbenzamidines: insight into the influence of selected substituents on the *in vitro* activity’ by D. Maciejewska *et al.*, *Med. Chem. Commun.*, 2017, 8, 2003–2011.

The authors regret that on page 7 of their article the name for compound 13 contains an error. The correct name for 13 is: 1,5-bis(4-amidino-2-nitrophenoxy)-3-oxapentane dihydrochloride (with -2- instead of -3-nitrophenoxy).

The Royal Society of Chemistry apologises for these errors and any consequent inconvenience to authors and readers.
