The authors regret that the incorrect CCDC numbers have been quoted in the footnote referencing the Electronic supplementary information (ESI) on the first page of the above article. The correct ESI footnote is shown below with CCDC numbers 1534898–1534904, and not 1046009–1046016. The CIF files posted originally were also incorrect. These were replaced with the correct files on 8th March 2017.

The Royal Society of Chemistry apologises for these errors and any consequent inconvenience to authors and readers.
