Correction for 'Synthesis and characterization of novel Li-stuffed garnet-like $\text{Li}_{5+2x}\text{La}_3\text{Ta}_{2-x}\text{Gd}_x\text{O}_{12}$ ($0 \leq x \leq 0.55$): structure–property relationships' by Dalia M. Abdel Basset, *et al.*, *Dalton Trans.*, 2017, **46**, 933–946.

There were some errors in Li occupancy in Table 1. The corrected Table 1 is given below. The changes are shown in BLUE.

Table 1 The powder X-ray Rietveld refinement results for $\text{Li}_{5+2x}\text{La}_3\text{Ta}_{2-x}\text{Gd}_x\text{O}_{12}$ ($0 \leq x \leq 0.55$). The model used for the Li distribution is based on ref. 25, 29, 32 and 33
