Correction for 'New di-anchoring A- π -D- π -A configured organic chromophores for DSSC application: sensitization and co-sensitization studies' by Praveen Naik *et al.*, *Photochem. Photobiol. Sci.*, 2018, DOI: 10.1039/c7pp00351j.

The authors would like to correct an error in the synthetic procedure for compound **E**₃, as the temperature reported in the published article is incorrect. The correct temperature is 60 °C, and the relevant sentence should read:

The mixture was dissolved in 20 mL of absolute methanol and then stirred at 60 °C for 12 h under an argon atmosphere.

The authors would also like to correct Table 2, as the data reported in this table are incorrect in the published article. The correct Table 2 is shown below.

Table 2 *J*-*V* parameters of DSSCs sensitized with **E**₁₋₃

Sensitizer	CDCA (mM)	<i>J</i> _{SC} (mA cm ⁻²)	<i>V</i> _{OC} (V)	FF (%)	η (%)
E ₁	10	6.359 ± 0.012	0.599 ± 0.001	62.5 ± 0.2	2.383 ± 0.008
E ₂	10	1.369 ± 0.003	0.510 ± 0.003	59.8 ± 0.4	0.417 ± 0.002
E ₃	10	1.450 ± 0.015	0.484 ± 0.001	56.8 ± 0.1	0.399 ± 0.003

The Royal Society of Chemistry apologises for these errors and any consequent inconvenience to authors and readers.
