Correction: High pressure single-molecule FRET studies of the lysine riboswitch: cationic and osmolytic effects on pressure induced denaturation

Hsuan-Lei Sung[ab] and David J. Nesbitt*[abc]

DOI: 10.1039/d0cp90155e

rsc.li/pccp

Correction for 'High pressure single-molecule FRET studies of the lysine riboswitch: cationic and osmolytic effects on pressure induced denaturation' by Hsuan-Lei Sung *et al.*, *Phys. Chem. Chem. Phys.*, 2020, DOI: 10.1039/d0cp01921f.

Correction #1: The apportioning of support in the acknowledgements was incorrectly captured in the original document. The corrected acknowledgements should read:

Acknowledgements

Primary support for this work has been provided by the National Science Foundation under grant CHE-1665271 from the Chemical, Structure, Dynamics and Mechanisms-A Program, with additional support for development of the confocal apparatus from PHY-1734006 (Physics Frontier Center Program). We would also like to acknowledge early seed contributions by the W. M. Keck Foundation Initiative in RNA Sciences at the University of Colorado, Boulder, and well as transitional support from the Air Force Office of Scientific Research (FA9550-15-1-0090).

Correction #2: Furthermore, the writing and submission of this paper occurred in the first weeks of the COVID-19 shutdown for JILA and the University of Colorado in Boulder, requiring the authors to transfer multiple Word and EndNote files from a lab computer to a home computer. In the process an EndNote library was corrupted, which resulted in several errors in the referencing process not caught until the article appeared online. Below, we summarize corrections in the references, apologizing for any challenges this creates for the reader. A fully corrected pdf is available on request (and on the Nesbitt group website, https://jila.colorado.edu/nesbitt/).

Location	Original reference given in published paper	Replacement reference from list of new references below
Page 2	Ref. 37	Ref. 1
Page 2	Ref. 38	Ref. 2
Page 2	Ref. 40	Ref. 3
Page 2	Ref. 41	Ref. 4
Pages 4, 7, 8 (×2) and 11	Ref. 10	Ref. 5
Pages 6 and 9	Ref. 53	Ref. 6
Page 6	Ref. 54	Ref. 7
Page 7	Ref. 58	Ref. 8
Page 7	Ref. 59	Ref. 9
Pages 7 and 9	Ref. 60	Ref. 10

[a] *JILA, National Institute of Standards and Technology and University of Colorado, Boulder, CO 80309, USA. E-mail: djn@jila.colorado.edu*
[b] *Department of Chemistry and Biochemistry, University of Colorado, Boulder, CO 80309, USA*
[c] *Department of Physics, University of Colorado, Boulder, CO 80309, USA*

Pages 7 and 9	Ref. 61	Ref. 11
Pages 7 and 9	Ref. 65	Ref. 12
Page 9 (×2)	Ref. 71	Ref. 13
Page 10	Ref. 73	Ref. 14
Page 11	Ref. 11	Ref. 15
Page 11 (×2)	Ref. 75	Ref. 16
Page 11 (×3)	Ref. 76	Ref. 17
Page 11 (×2)	Ref. 77	Ref. 18

On page 1, ref. 11 should be deleted.
On page 6, ref. 55 should be replaced with ref. 11 from the published article.
The Royal Society of Chemistry apologises for these errors and any consequent inconvenience to authors and readers.
