## Correction: Crystal growth of two-dimensional organic–inorganic hybrid perovskites and their application in photovoltaics

Yuling Zhang, Ruyue Wang and Zhan'ao Tan\*

DOI: 10.1039/d3ta90117c  
rsc.li/materials-a

Correction for 'Crystal growth of two-dimensional organic–inorganic hybrid perovskites and their application in photovoltaics' by Yuling Zhang *et al.*, *J. Mater. Chem. A*, 2023, <https://doi.org/10.1039/D3TA01496G>.

The authors regret errors which appeared in Fig. 4 and 5a of the published article, where the structures of two given compounds were incorrectly shown. The corrected version of Fig. 4 and 5a are shown below:

Fig. 4 Chemical structure of the commonly used A-site organic cations for fabricating R–P (blue color), D–J (red color), and ACI (pink color) perovskite films.
