Acknowledgements

The authors would like to thank the United States Department of Agricultural National Institute of Food & Agriculture (2023-67021-39748) for the support of this research. Additional support was provided by the United States Environmental Protection Agency Science to Achieve Results Program (EPA STAR 84059901). It has not been formally reviewed by EPA. The views expressed in this document are solely those of the award recipient (Haoran Wei) and the coauthors and do not necessarily reflect those of the Agency. EPA does not endorse any products or commercial services mentioned in this publication. The authors gratefully acknowledge use of facilities and instrumentation at the UW-Madison Wisconsin Centers for Nanoscale Technology (<https://www.wcnt.wisc.edu>), partially supported by the NSF through the University of Wisconsin Materials Research Science and Engineering Center (DMR-1720415). The authors also thank the support from the Core Facility for Advanced Water Analysis at the University of Wisconsin–Madison.

The Royal Society of Chemistry apologises for these errors and any consequent inconvenience to authors and readers.
