Correction: Excitation of vibrational soft modes in disordered systems using active oscillation

Elsen Tjhung* and Takeshi Kawasaki**

In the above article, in the introduction,
‘...the matrix size is $dN / C^2 dN$, where $N$ is the particle number.’
should read:
‘...the matrix size is $dN \times dN$, where $N$ is the particle number.’
Additionally, in the top row of the Fig. 2 caption,
‘Real time displacements of the particles: $r_i(t + \Delta t) - r_i(t)$ for increasing driving amplitudes $\omega_d$ from left to right.’
should read:
‘Real time displacements of the particles: $r_i(t + \Delta t) - r_i(t)$ for increasing driving frequencies $\omega_d$ from left to right.’
The Royal Society of Chemistry apologises for these errors and any consequent inconvenience to authors and readers.
