Correction: Development of a novel secondary phosphine oxide–ruthenium(II) catalyst and its application for carbonyl reduction

Xuefeng Tan, Weijun Zeng, Xiaoyong Zhang, Lung Wa Chung* and Xumu Zhang*

The authors regret that they omitted some references regarding the synthesis of some analogues of ruthenium complex 2, such as Pd, Ni, Ir and Rh complexes with a PP(O)P ligand. The missing references are presented below as ref. 1.

The Royal Society of Chemistry apologises for these errors and any consequent inconvenience to authors and readers.
