Correction for 'Highly selective, catalyst-free CO<sub>2</sub> reduction in strong acid without alkali cations by a mechanical energy-induced triboelectric plasma-electrolytic system' by Hui Hu *et al.*, *Green Chem.*, 2025, <https://doi.org/10.1039/d5gc00977d>.

The authors regret that Fig. 5 was incorrect in the original article. The correct version of Fig. 5 is given below.

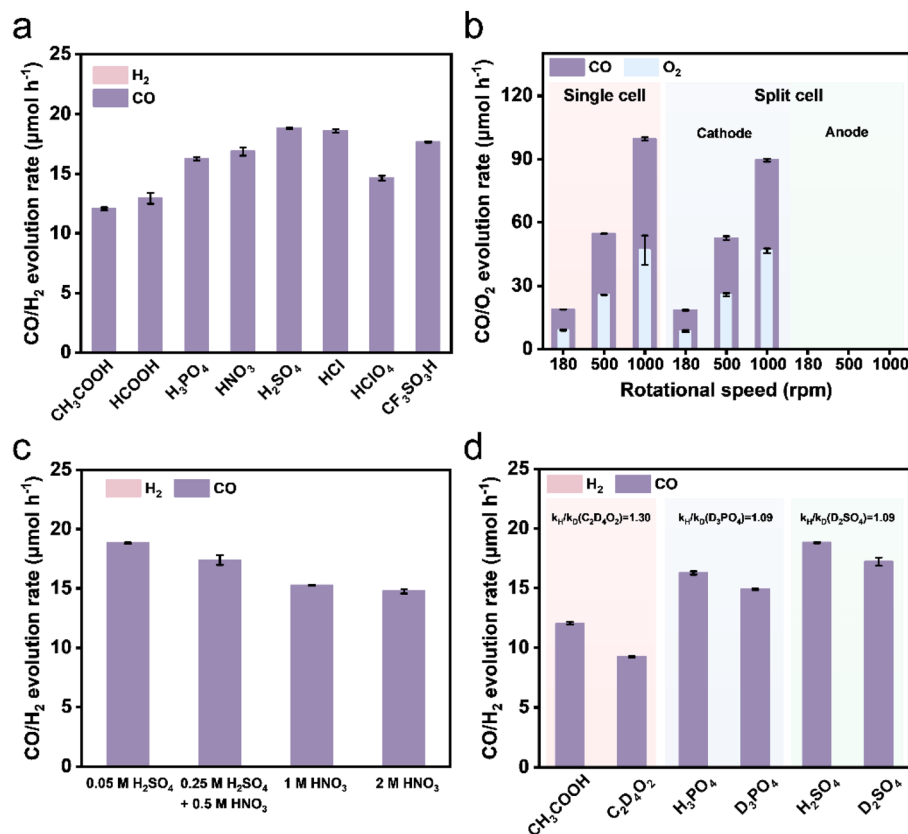

Fig. 5 Insight into the CO<sub>2</sub>RR in strong acids. (a) CO/H<sub>2</sub> evolution rate versus acids at the same concentration of H<sup>+</sup>. (b) CO/O<sub>2</sub> evolution rate in a single or split cell versus TENG rotational speed. (c) CO/H<sub>2</sub> evolution rate versus nitrate concentration. (d) CO/H<sub>2</sub> evolution rate versus H/D-labeled acid.

The Royal Society of Chemistry apologises for these errors and any consequent inconvenience to authors and readers.
