Correction: Intermolecular network analysis of the liquid and vapor interfaces of pentane and water: microsolvation does not trend with interfacial properties

Yasaman Ghadar and Aurora E. Clark*

DOI: 10.1039/c5cp90093j

www.rsc.org/pccp

Correction for 'Intermolecular network analysis of the liquid and vapor interfaces of pentane and water: microsolvation does not trend with interfacial properties' by Yasaman Ghadar *et al.*, *Phys. Chem. Chem. Phys.*, 2014, **16**, 12475–12487.

Fig. 3(B) is incorrect in the paper. The amended figure is shown below. This error does not affect the main conclusions of the paper.

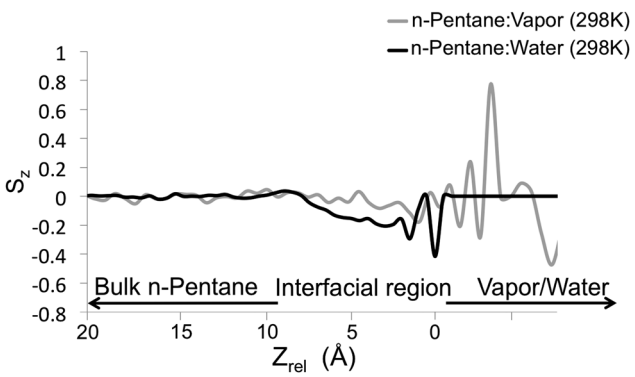

Fig. 3 (B) The *n*-pentane order parameter in *n*-pentane:vapor and water:*n*-pentane at 298 K. A relative *z*-axis (z_{rel}) has been used so as to overlap the spectra for optimal comparisons of behavior.

The Royal Society of Chemistry apologises for these errors and any consequent inconvenience to authors and readers.
