## Correction: A shock tube study of the branching ratios of propene + OH reaction

Jihad Badra,<sup>ab</sup> Fethi Khaled,<sup>a</sup> Binod Raj Giri<sup>a</sup> and Aamir Farooq<sup>\*a</sup>

Correction for 'A shock tube study of the branching ratios of propene + OH reaction' by Jihad Badra *et al.*, *Phys. Chem. Chem. Phys.*, 2015, **17**, 2421–2431.

DOI: 10.1039/c5cp90156a

The authors wish to acknowledge that some of the findings and text in this article were previously published in conference proceedings: Fethi B. Khaled, Jihad Barda, and Aamir Farooq, 50th AIAA/ASME/SAE/ASEE Joint Propulsion Conference, 2014, DOI: 10.2514/6.2014-3983. The article published in *PCCP* reports new experimental data and theoretical analysis to extract branching ratios of the propene + OH reaction. The article further extends the findings to calculate site-specific H-abstractions rate coefficients for the butene + OH reaction.

The Royal Society of Chemistry apologises for these errors and any consequent inconvenience to authors and readers.
