Correction: Iminoborylene complexes: evaluation of synthetic routes towards BN-allenylidenes and unexpected reactivity towards carbodiimides

J. Niemeyer,^{*a} M. J. Kelly,^b I. M. Riddlestone,^b D. Vidovic^b and S. Aldridge^{*b}

Correction for 'Iminoborylene complexes: evaluation of synthetic routes towards BN-allenylidenes and unexpected reactivity towards carbodiimides' by J. Niemeyer *et al.*, *Dalton Trans.*, 2015, DOI: 10.1039/c5dt00131e.

On the 4th page, last paragraph, it says:

"The cationic borylene component features a cumulene-type linear arrangement of the Fe–B–N–C unit [$\angle\text{Fe}(1)\text{--B}(28)\text{--N}(29) = 170.9(5)^\circ$, $\angle\text{B}(28)\text{--N}(36)\text{--C}(37) = 175.3(2)^\circ$]."

It should say:

"The cationic borylene component features a cumulene-type linear arrangement of the Fe–B–N–C unit [$\angle\text{Fe}(1)\text{--B}(28)\text{--N}(29) = 170.9(5)^\circ$, $\angle\text{B}(28)\text{--N}(29)\text{--C}(30) = 166.6(5)^\circ$]."

On the same page, subscript of Fig. 2, it says:

"...(for **12d**) Fe(1)–B(28) 1.835(6), B(28)–N(29) 1.302(8), N(29)–C(30) 1.287(7), Fe(1)–B(28)–N(29) 170.9(5), B(28)–N(36)–C(37) 175.3(2)."

It should say:

"...(for **12d**) Fe(1)–B(28) 1.835(6), B(28)–N(29) 1.302(8), N(29)–C(30) 1.287(7), Fe(1)–B(28)–N(29) 170.9(5), B(28)–N(29)–C(30) = 166.6(5)°."

The Royal Society of Chemistry apologises for these errors and any consequent inconvenience to authors and readers.
