Correction for 'Three bonding modes of bis(2-picolyl)phenylphosphine at iron: isolation of a dinuclear iron complex featuring dearomatized pyridine moieties' by G. Jin *et al.*, *Dalton Trans.*, 2015, **44**, 7500–7505.

We, the named authors, would like to correct the numbering for the different atoms of the molecular structure of complex **3** shown on page 7503. The correct numbering for the different atoms is shown below, the NMR data remain unchanged.

The Royal Society of Chemistry apologises for these errors and any consequent inconvenience to authors and readers.
