Correction for 'New knowledge on the antiglycoxidative mechanism of chlorogenic acid' by Beatriz Fernandez-Gomez *et al.*, *Food Funct.*, 2015, DOI: 10.1039/c5fo00194c.

On page 2 of the manuscript, there is an error in the third sentence of section 2.3.1 relating to the quantity of distilled water used; the quantity should read 100 μ L rather than 100 mL. The complete sentence should therefore read: "The reaction mixture was composed by 50 μ L of sample containing 1 mg mL^{-1} of protein, 100 μ L of OPA reagent and 100 μ L of distilled water."

The Royal Society of Chemistry apologises for these errors and any consequent inconvenience to authors and readers.
