## Correction: Post-functionalized iridium–Zr-MOF as a promising recyclable catalyst for the hydrogenation of aromatics

Antonia M. Rasero-Almansa,<sup>a</sup> Avelino Corma,<sup>b</sup> Marta Iglesias<sup>\*a</sup> and Félix Sánchez<sup>\*c</sup>

Correction for 'Post-functionalized iridium–Zr-MOF as a promising recyclable catalyst for the hydrogenation of aromatics' by Antonia M. Rasero-Almansa *et al.*, *Green Chem.*, 2014, 16, 3522–3527.

Following some reader correspondence, the authors would like to clarify some sample names and their representative images.

Fig. 1 of the title manuscript contains an incorrect TEM image (Fig. 1b) for the fresh catalysts. The correct version of Fig. 1 is displayed below.

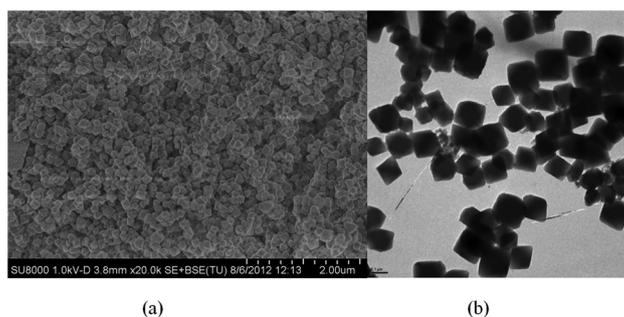

Fig. 1 SEM (a) and TEM (b) images for UiO66-NH<sub>2</sub>-[Llr].

Accordingly, Fig. S13a in the ESI is also incorrect and should be replaced by the new Fig. S13a–c shown here.

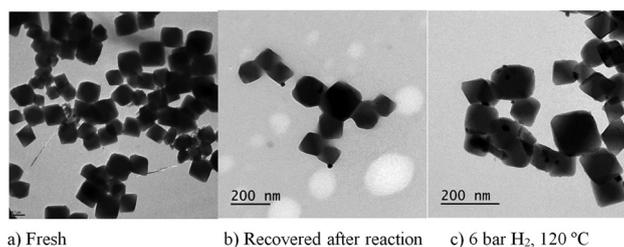

Fig. S13 TEM images for Zr-MOF-Ir samples.

Despite these corrections, the main message of the manuscript is not affected.

The Royal Society of Chemistry apologises for these errors and any consequent inconvenience to authors and readers.
