Correction for 'Synthesis and antibacterial activity evaluation of C-5 side chain modified analogues of FYL-66, a potential agent against methicillin-resistant *Staphylococcus aureus*' by Xiaoyan Yang et al., *MedChemComm*, 2015, 6, 1156–1172.

The authors regret the following error: In Table 5, the C_{\max} value for FYL-66 using i.v. dosing was wrongly shown as $330.6 \pm 158.7 \text{ mg L}^{-1}$. The correct value is $33.06 \pm 15.87 \text{ mg L}^{-1}$.

The Royal Society of Chemistry apologises for these errors and any consequent inconvenience to authors and readers.
