## Correction: Palladium catalyzed amide-oxazoline directed C–H acetoxylation of arenes

Bin Liu, Xuhu Huang, Xin Wang, Zemei Ge\* and Runtao Li\*

 Correction for 'Palladium catalyzed amide-oxazoline directed C–H acetoxylation of arenes' by Bin Liu *et al.*, *Org. Chem. Front.*, 2015, DOI: 10.1039/c5qo00104h.

In 2013, Zhang and co-workers developed the Pd-catalyzed oxidative acetoxylation of benzylic C(sp<sup>3</sup>)-H bonds of picolinoyl-protected toluidines using PhI(OAc)<sub>2</sub> as an oxidant.<sup>1</sup> In our article, we regret the inclusion of an incorrect structure in Scheme 1, page 1 of the original manuscript. The correct structures are given below.

**Scheme 1** Transition metal-catalyzed acetoxylation of C–H bonds.

The Royal Society of Chemistry apologises for these errors and any consequent inconvenience to authors and readers.
