## Correction: Ni–Cu alloy nanoparticles loaded on various metal oxides acting as efficient catalysts for photocatalytic H<sub>2</sub> evolution

Yusuke Yamada,<sup>\*ab</sup> Shinya Shikano<sup>a</sup> and Shunichi Fukuzumi<sup>\*acd</sup>Correction for 'Ni–Cu alloy nanoparticles loaded on various metal oxides acting as efficient catalysts for photocatalytic H<sub>2</sub> evolution' by Yusuke Yamada *et al.*, *RSC Adv.*, 2015, 5, 44912–44919.

The authors acknowledge that an error in the preparation of Fig. 6 in the original article resulted in the text below two scale bars in the figure becoming illegible. The text is clearly displayed in the correct version of Fig. 6, which is shown below.

**Fig. 6** (a and c) TEM images and (b and d) powder X-ray diffraction peaks of Ni–Cu/Al<sub>2</sub>O<sub>3</sub>–SiO<sub>2</sub> prepared by the impregnation method using (a and b) Ni–Cu nanoparticles or (c and d) Cu(NO<sub>3</sub>)<sub>2</sub> and Ni(NO<sub>3</sub>)<sub>2</sub>. The diffraction peaks with the "\*" mark originate from the Al<sub>2</sub>O<sub>3</sub>–SiO<sub>2</sub> support.

The Royal Society of Chemistry apologises for these errors and any consequent inconvenience to authors and readers.
