## Correction: Air-processed inverted organic solar cells utilizing a 2-aminoethanol-stabilized ZnO nanoparticle electron transport layer that requires no thermal annealing

Il Jeon,<sup>a</sup> James W. Ryan,<sup>a</sup> Tafu Nakazaki,<sup>b</sup> Kee Sheng Yeo,<sup>a</sup> Yuichi Negishi<sup>b</sup> and Yutaka Matsuo<sup>\*a</sup>

Correction for 'Air-processed inverted organic solar cells utilizing a 2-aminoethanol-stabilized ZnO nanoparticle electron transport layer that requires no thermal annealing' by Il Jeon *et al.*, *J. Mater. Chem. A*, 2014, 2, 18754–18760.

In the Experimental section, the sentence "Firstly, 0.49 mg (0.1 mol) of zinc (ii) acetate  $\text{Zn}(\text{CH}_3\text{COO})_2$  was added to 2-aminoethanol (100 ml)" is incorrect and should read "Firstly, 180 mg (0.981 mmol) of zinc (ii) acetate  $\text{Zn}(\text{CH}_3\text{COO})_2$  was added to 2-aminoethanol (100 ml)".

The Royal Society of Chemistry apologises for these errors and any consequent inconvenience to authors and readers.
