Correction for 'Simultaneous determination of eight ginsenosides in Zibu Piyin Recipe using ultra-performance liquid chromatography coupled with triple-quadrupole mass spectrometry (UPLC-MS/MS)' by Hui-Ying Xu *et al.*, *Anal. Methods*, 2015, 7, 7527–7533.

The authors regret the following corrections that are required in the article. In Table 4, the unit of 'Contents' should read 'mg'; this also applies to the corresponding expressions in the 'Sample analysis' section of the manuscript on page 7531. In addition, the penultimate sentence of Section 2.4 should read: 'The resulting extract solution was centrifuged at 1917g for 10 min, filtered through a 0.22 µm membrane filter then 2-fold diluted with water–acetonitrile (72 : 28, v/v)'.

The Royal Society of Chemistry apologises for these errors and any consequent inconvenience to authors and readers.
