Correction: Effects of *p*-substituents on electrochemical CO oxidation by Rh porphyrin-based catalysts

Shin-ichi Yamazaki,^{*a} Yusuke Yamada,^a Sahori Takeda,^b Midori Goto,^c
Tsutomu Iroji,^a Zyun Siroma^a and Kazuaki Yasuda^a

Correction for 'Effects of *p*-substituents on electrochemical CO oxidation by Rh porphyrin-based catalysts' by Shin-ichi Yamazaki et al., *Phys. Chem. Chem. Phys.*, 2010, **12**, 8968–8976.

The authors would like to correct an error in the caption of Fig. 2. The text “prepared by the equilibrium adsorption method” should be amended to “prepared by the evaporation-to-dryness (impregnation) method”.

In the main text, it is stated that the preparation method is the evaporation-to-dryness (impregnation) method, and hence this correction does not affect the conclusion.

The Royal Society of Chemistry apologises for these errors and any consequent inconvenience to authors and readers.
