Correction: Degradation and mineralization of methylene blue using a heterogeneous photo-Fenton catalyst under visible and solar light irradiation

Yunus Ahmed,^{*ab} Zahira Yaakob^{*a} and Parul Akhtar^a

Correction for 'Degradation and mineralization of methylene blue using a heterogeneous photo-Fenton catalyst under visible and solar light irradiation' by Yunus Ahmed *et al.*, *Catal. Sci. Technol.*, 2016, DOI: 10.1039/c5cy01494h.

The authors regret that the incorrect version of Fig. 1 was displayed in the original article, due to parts (c) and (e) being identical. A corrected version of Fig. 1 is presented below.

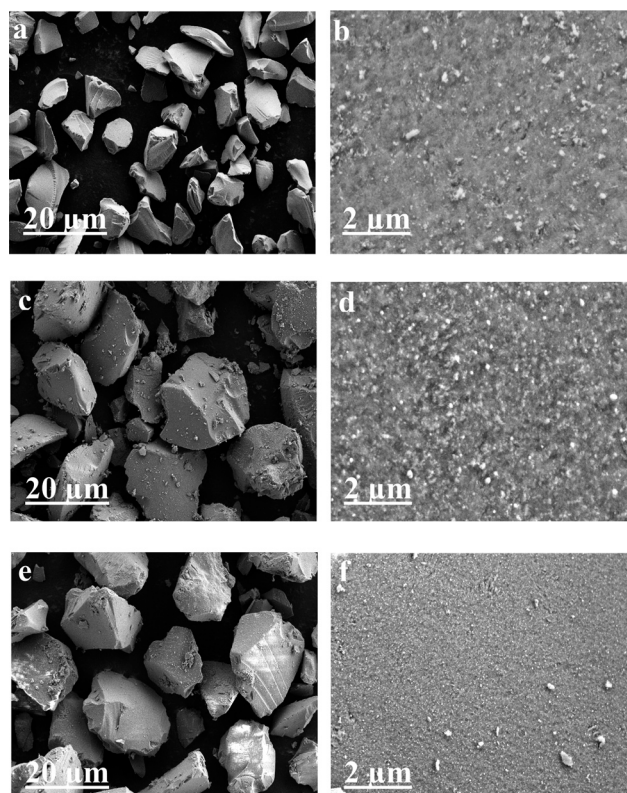

Fig. 1 FESEM images of the (a and b) SiO_2 support, (c and d) fresh Fe-Ni/ SiO_2 catalyst and (e and f) spent Fe-Ni/ SiO_2 catalyst at different magnifications.

The Royal Society of Chemistry apologises for these errors and any consequent inconvenience to authors and readers.
