## Correction: Enantiopure titanocene complexes – direct evidence for paraptosis in cancer cells

Melchior Cini,<sup>\*,abcd</sup> Huw Williams,<sup>ad</sup> Mike W. Fay,<sup>c</sup> Mark S. Searle,<sup>ad</sup> Simon Woodward<sup>\*a</sup> and Tracey D. Bradshaw<sup>\*bd</sup>

Correction for 'Enantiopure titanocene complexes – direct evidence for paraptosis in cancer cells' by Melchior Cini *et al.*, *Metallomics*, 2016, DOI: 10.1039/c5mt00297d.

In the legend of Fig. 7, there is an error in the units of concentration of compound *(R,R)-4*. The final sentence of this figure legend should read: "Fit of the concentration of **I** vs. time after first dissolution of colloidal *(R,R)-4* nominally 200  $\mu$ M in 1:99 d<sub>6</sub>-DMSO/D<sub>2</sub>O to equilibrating first order reactions using the equations of Moore and Pearson".

The Royal Society of Chemistry apologises for these errors and any consequent inconvenience to authors and readers.
