 Correction for 'Stimuli-responsive magnetic nanoparticles for tumor-targeted bimodal imaging and photodynamic/hyperthermia combination therapy' by Kyoung Sub Kim, *et al.*, *Nanoscale*, 2016, DOI: 10.1039/c6nr02273a.

The authors wish to bring to the reader's attention that Fig. 1(f) in the original paper and the corresponding graphical abstract image are incorrect. The corrected version of Fig. 1 (and the graphical abstract image) is as shown below:

**Fig. 1** Water solubility images of (a) MNP10 and (b) MNP40 before and after coating with AHP. Size distribution of (c) AHP@MNP10 (average size:  $108.13 \pm 1.08$  nm) and (d) AHP@MNP40 (average size:  $222.37 \pm 5.05$  nm). TEM images of (e) AHP@MNP10 and (f) AHP@MNP40.

The Royal Society of Chemistry apologises for these errors and any consequent inconvenience to authors and readers.
