Correction for 'Stereoselective synthesis of (–)-desethyleburnamonine, (–)-vindeburnol and (–)-3-epitacamone: observation of a substrate dependent diastereoselectivity reversal of an aldol reaction' by Pravat Mondal *et al.* *Org. Biomol. Chem.* 2016, DOI: 10.1039/c6ob01438k.

The authors regret that two references to the literature procedure for the transformation of compound **3** to compound **4** were omitted in Scheme 1. The correct scheme and references are shown below.

**Scheme 1** Stereoselective synthesis of (+)-keto-lactam and (+)-keto-amine precursors for ester aldol reactions.

The Royal Society of Chemistry apologises for these errors and any consequent inconvenience to authors and readers.
