Correction: Stereoselective synthesis of \((-\))\text{-}desethyleburnamonine, \((-\))\text{-}vindeburnol and \((-\))\text{-}3\text{-}epitacamonine: observation of a substrate dependent diastereoselectivity reversal of an aldol reaction

Pravat Mondal and Narshinha P. Argade

The authors regret that two references to the literature procedure for the transformation of compound 3 to compound 4 were omitted in Scheme 1. The correct scheme and references are shown below.

Scheme 1  Stereoselective synthesis of \((\pm)\text{-}keto-lactam and \((+\)\text{-}keto-amine precursors for ester aldol reactions.

The Royal Society of Chemistry apologises for these errors and any consequent inconvenience to authors and readers.
