## Correction: Removal of dyes by a novel fly ash–chitosan–graphene oxide composite adsorbent

Guanghong Sheng,<sup>\*ab</sup> Shuang Zhu,<sup>a</sup> Shisheng Wang<sup>a</sup> and Zhiyu Wang<sup>a</sup>Correction for 'Removal of dyes by a novel fly ash–chitosan–graphene oxide composite adsorbent' by Guanghong Sheng et al., *RSC Adv.*, 2016, 6, 17987–17994.

The authors regret that an incorrect chemical structure for chitosan was depicted in Scheme 1 of the original article. The amended version of this image is shown below.

Scheme 1 Preparation process of FCGO adsorbent.

Additionally, the units for the  $Q_e$  values in Table 3 of the original manuscript should be " $\text{mg g}^{-1}$ " rather than " $\text{mg L}^{-1}$ ", and the units for  $\Delta S^0$  in the **Conclusions** should be " $\text{J mol}^{-1} \text{K}^{-1}$ " rather than " $\text{J mol K}^{-1}$ ".

The Royal Society of Chemistry apologises for these errors and any consequent inconvenience to authors and readers.
