## Correction: The origin of room temperature ferromagnetism mediated by $Co-V_{Zn}$ complexes in the ZnO grain boundary

Assa Aravindh Sasikala Devi and Iman S. Rogan\*

DOI: 10.1039/c6ra90106a www.rsc.org/advances

Correction for 'The origin of room temperature ferromagnetism mediated by  $Co-V_{Zn}$  complexes in the ZnO grain boundary' by Assa Aravindh Sasikala Devi and Iman S. Roqan, *RSC Adv.*, 2016, **6**, 50818–50824.

The authors regret that the equation for the exchange coupling parameter shown in the final paragraph of the **Results and discussion** is incorrect in the original article. The correct version of the equation, in which the positions of the ferromagnetic (FM) and anti-ferromagnetic (AFM) configurations are reversed, is:  $\Delta E = E_{AFM} - E_{FM}$ . The subsequent discussion on  $\Delta E$  is unaffected by this typographical error.

The Royal Society of Chemistry apologises for these errors and any consequent inconvenience to authors and readers.
