Correction for 'Titanium aminophosphates: synthesis, characterization and crystal violet dye degradation studies' by Anumula Rajini *et al.*, *RSC Adv.*, 2016, 6, 507–514.

In this *RSC Advances* article, the reference from which Fig. 1c, 2c and S4b were reproduced from was omitted. The reference and the revised Fig. 1, 2 and S4 captions are given below. Please note that Fig. S4b and c were mis-labelled in the original article; the corrected labels are shown below.

Fig. 1 Powder XRD patterns of (a) TNPAP, (b) TNOAP and (c) TNDDAP. (c) has been reproduced from ref. 1 [*Indian J. Chem., Sect. A: Inorg., Bio-inorg., Phys., Theor. Anal. Chem.*, 2015, 54, 1044–1050 with permission from CSIR-NISCAIR, New Delhi, India].

Fig. 2 SEM images of (a) TNPAP, (b) TNOAP and (c) TNDDAP. The SEM image in (c) has been reproduced from ref. 1 [*Indian J. Chem., Sect. A: Inorg., Bio-inorg., Phys., Theor. Anal. Chem.*, 2015, **54**, 1044–1050 with permission from CSIR-NISCAIR, New Delhi, India].

In addition, the figures and text describing the characterisation of the titanium aminophosphates in this *RSC Advances* paper have been reproduced from the authors' previous work in ref. 2. Therefore, the characterisation data and information presented in Fig. 1, 2, 3, S1, S2, S4, S5, S6, S7 and S8 were intended as representative examples of the titanium aminophosphate material. The

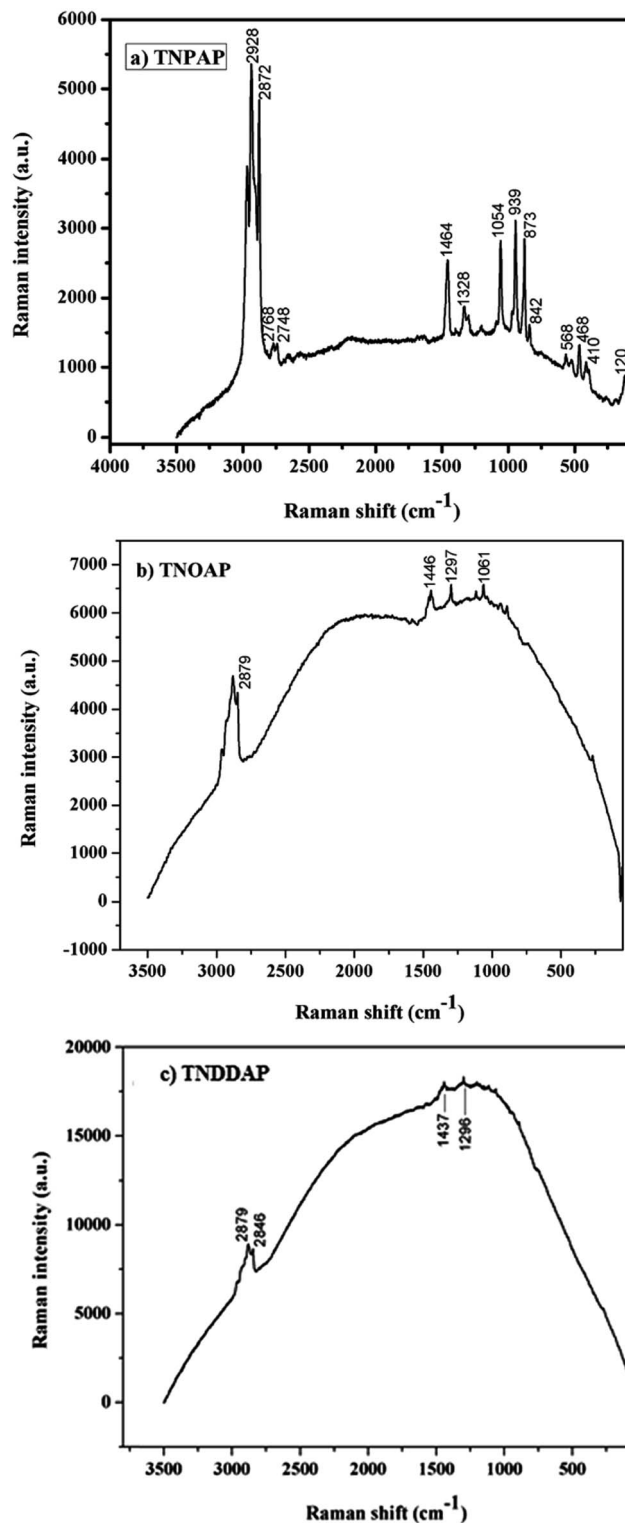

Fig. S4 Dispersive Raman spectra of (a) TNPAP, (b) TNDDAP and (c) TNOAP. (b) has been reproduced from ref. 1 [*Indian J. Chem., Sect. A: Inorg., Bio-inorg., Phys., Theor. Anal. Chem.*, 2015, **54**, 1044–1050 with permission from CSIR-NISCAIR, New Delhi, India].

authors are confident of the batch-to-batch reproducibility. The authors regret that this was not highlighted in their paper and apologise for any inconvenience caused.

The Royal Society of Chemistry apologises for these errors and any consequent inconvenience to authors and readers.
