Retraction of 'Synergetic effects of ultrasound combined with Fenton pretreatment that accelerates wasted activated sludge anaerobic fermentation to produce volatile fatty acids' by Hongxu Bao *et al.*, *RSC Advances*, 2016, DOI: 10.1039/c6ra19028f

We, the named authors, wholly retract this *RSC Advances* article due to extensive overlap with data published in ref. 1, which means that this *RSC Advances* paper is redundant. Ref. 1 was not cited in this *RSC Advances* article.

The following figures and tables reproduce data from ref. 1: Fig. 3, 5–9 and Table 1.

The authors would like to apologise for any inconvenience to authors and readers.
