Correction for 'Essential role of hydride ion in ruthenium-based ammonia synthesis catalysts' by Masaaki Kitano *et al.*, *Chem. Sci.*, 2016, **7**, 4036-4043.

The authors regret that in the original article incorrect units were used to define both the number of surface Ru atoms (N_s) and the ammonia synthesis rate (r_{NH_3}) in columns 6 and 7 of Table 1. In both cases, 'μmol' should have been used instead of 'mmol'. Therefore, the correct units for N_s and r_{NH_3} are 'μmol g^{-1}' and 'μmol g^{-1} h^{-1}' respectively.

The Royal Society of Chemistry apologises for these errors and any consequent inconvenience to authors and readers.
