www.rsc.org/chemicalscience**Correction: Essential role of hydride ion in ruthenium-based ammonia synthesis catalysts**Masaaki Kitano,^a Yasunori Inoue,^b Hiroki Ishikawa,^b Kyosuke Yamagata,^b Takuya Nakao,^b Tomofumi Tada,^a Satoru Matsuishi,^a Toshiharu Yokoyama,^{ac} Michikazu Hara^{*bcd} and Hideo Hosono^{*abcd}Correction for 'Essential role of hydride ion in ruthenium-based ammonia synthesis catalysts' by Masaaki Kitano *et al.*, *Chem. Sci.*, 2016, 7, 4036-4043.

The authors regret that in the original article incorrect units were used to define both the number of surface Ru atoms (N_s) and the ammonia synthesis rate (r_{NH_3}) in columns 6 and 7 of Table 1. In both cases, ' μmol ' should have been used instead of ' mmol '. Therefore, the correct units for N_s and r_{NH_3} are ' $\mu\text{mol g}^{-1}$ ' and ' $\mu\text{mol g}^{-1} \text{h}^{-1}$ ', respectively.

The Royal Society of Chemistry apologises for these errors and any consequent inconvenience to authors and readers.
