Correction: Experimental studies on the rheology of cubic blue phases

Rasmita Sahoo,^a O. Chojnowska,^b R. Dabrowski^b and Surajit Dhara^{*a}

Correction for 'Experimental studies on the rheology of cubic blue phases' by Rasmita Sahoo et al., *Soft Matter*, 2016, DOI: 10.1039/c5sm02299a.

The authors regret the following typographical errors in Fig. 1, which were noticed after the publication of the original manuscript. The correct version of Fig. 1 is as shown below.

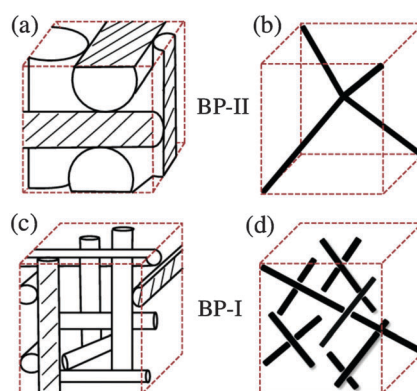

Fig. 1 Schematic diagrams of the BP-II and BP-I. (a and c) Spatial arrangement of double twist cylinders in unit cells of BP-II and BP-I, respectively. (b) Simple cubic unit cell of the disinclination lattices in BP-II. (d) Body centered cubic unit cell of the disinclination lattices in BP-I. The black lines in (b) and (d) are the defect-disinclinations.

Note that this does not change any of the results or conclusions.

The Royal Society of Chemistry apologises for these errors and any consequent inconvenience to authors and readers.
