Correction: Enhanced resistive switching effect upon illumination in self-assembled NiWO₄ nano-nests

Bai Sun,^{ab} Wenxi Zhao,^{ab} Lujun Wei,^a Hongwei Li^a and Peng Chen^{*a}

Correction for 'Enhanced resistive switching effect upon illumination in self-assembled NiWO₄ nano-nests' by Bai Sun *et al.*, *Chem. Commun.*, 2014, **50**, 13142–13145.

The authors wish to amend an error in Fig. 2(b) and the associated caption text, in which 'Co' was mistakenly written instead of 'Ni'. The correct image and caption text for Fig. 2(b) are shown in the replacement for Fig. 2 below.

Fig. 2 (a) The X-ray powder diffraction (XRD) pattern of NiWO₄ nano-nests. (b) The energy-dispersive X-ray spectra (EDS) of NiWO₄ nano-nests. The inset to (b) shows the atomic percentage of W, Ni and O.

The Royal Society of Chemistry apologises for these errors and any consequent inconvenience to authors and readers.
