## Correction: Ag<sup>+</sup>-induced photoluminescence enhancement in lanthanide post-functionalized MOFs and Ag<sup>+</sup> sensing

Nana Sun and Bing Yan\*

Correction for 'Ag<sup>+</sup>-induced photoluminescence enhancement in lanthanide post-functionalized MOFs and Ag<sup>+</sup> sensing' by Nana Sun *et al.*, *Phys. Chem. Chem. Phys.*, 2017, **19**, 9174–9180.

The authors would like to replace Fig. 2 in their article with the amended version shown below to correct an error in the published version.

Fig. 2 Excitation and emission spectrum of Eu-MIL-61. The inset is the corresponding luminescence picture under UV-light irradiation of 314 nm and CIE chromaticity diagram ( $x = 0.6078$ ,  $y = 0.3422$ ).

This change does not affect the discussion or conclusions in the article.

The Royal Society of Chemistry apologises for these errors and any consequent inconvenience to authors and readers.
