Correction: The generalized maximum hardness principle revisited and applied to atoms and molecules

Wojciech Grochala

DOI: 10.1039/c7cp90249b

Correction for 'The generalized maximum hardness principle revisited and applied to atoms and molecules' by Wojciech Grochala, *Phys. Chem. Chem. Phys.*, 2017, DOI: 10.1039/c7cp03101g.

rsc.li/pccp

The author would like to correct the following errors in the published article:

1. On the third page, left column, "Minimum polarizability principle" sub-section, 2nd paragraph, the text beginning 'The most accurate theoretical value for Fr...' should be amended to 'The most accurate theoretical value for eka-Fr...'.
2. In Fig. 6 and 7, the units of R_{at} should be given as Å instead of Å³.
3. In the caption of Fig. 12, line 5, T_{M} should be written as T_{M} .
4. In Fig. 16, the y-axis should refer to "hardness" rather than "electronegativity" and be labelled as η/eV .

The Royal Society of Chemistry apologises for these errors and any consequent inconvenience to authors and readers.
