Correction for 'Visible-light-mediated aerobic selenation of (hetero)arenes with diselenides' by Qing-Bao Zhang *et al.*, *Green Chem.*, 2017, **19**, 5559–5563.

The authors regret that there was an error in the last sentence of the paragraph above the **Conclusions** section of the original article, whereby "6.3 M" should read "6.3 μ M".

The sentence should read "The antiproliferative activity of **3al** (with an IC_{50} value of 6.3 μ M for HeLa, see the ESI) is even comparable to that of AF (auranofin)".

The Royal Society of Chemistry apologises for these errors and any consequent inconvenience to authors and readers.
