Correction: Highly sensitive self-complementary DNA nanoswitches triggered by polyelectrolytes

Jincai Wu, Feng Yu, Zheng Zhang, Yong Chen and Jie Du*

Correction for 'Highly sensitive self-complementary DNA nanoswitches triggered by polyelectrolytes' by Jincai Wu *et al.*, *Nanoscale*, 2016, **8**, 464–470.

Atsushi Maruyama wishes to be removed from the authorship of this article. He states that he was not involved in its preparation and was unaware of its submission.

The corrected authorship is as follows:

Jincai Wu, Feng Yu, Zheng Zhang, Yong Chen and Jie Du*

The authors regret that they did not cite their prior *ChemComm* paper¹ and therefore did not put the findings reported in this *Nanoscale* paper in proper context as a follow up study.

Fig. 1a–c and Fig. 6a, c and d have been reproduced from ref. 1 and therefore should be attributed to that paper.

The Royal Society of Chemistry apologises for these errors and any consequent inconvenience to authors and readers.
