Correction: Giant vesicles from rehydrated crude mixtures containing unexpected mixtures of amphiphiles formed under plausibly prebiotic conditions

Michele Fiore,* Warren Madanamoothoo, Alexandra Berlioz-Barbier, Ofelia Maniti, Agnès Girard-Egrot, René Buchet and Peter Strazewski*

The authors regret the following errors.

In the sentence ‘Most recently, Mattew Powner & colleagues demonstrated how pyrimidine nucleotides and 8-oxopurine nucleotides could be formed under similar prebiotic conditions.9’ The spelling of Mattew should be corrected to Matthew. In addition, the wrong DOI was included in reference 9. The corrected reference 9 is shown below.

In the first sentence of the section headed ‘Cyanamide under simulated prebiotic conditions’, ‘1 mm ammonium dihydrogen phosphate’ should read ‘1 mmol ammonium dihydrogen phosphate’.

In the Acknowledgements ‘the CO2-Glyco research group’ should read ‘the CO2-Glyco research group’.

The Royal Society of Chemistry apologises for these errors and any consequent inconvenience to authors and readers.
