Correction for 'Computationally guided discovery of a reactive, hydrophilic *trans*-5-oxocene dienophile for bioorthogonal labeling' by William D. Lambert *et al.*, *Org. Biomol. Chem.*, 2017, **15**, 6640–6644.

The authors regret that in the Introduction in one place reference 36 was incorrectly cited instead of reference 35. The correct sentence is shown below.

Very recently, Lemke, Kele and coworkers reported the genetic incorporation of dioxo-TCO 2 and demonstrated that the lower lipophilicity of this molecule resulted in improved washout times during imaging experiments. In Diels–Alder reactions with tetrazines, the reaction rate with 2 is similar to that with the parent TCO. 35,40

The Royal Society of Chemistry apologises for these errors and any consequent inconvenience to authors and readers.
