 Correction for 'Methane production enhancement from products of alkaline hydrogen peroxide pretreated sweet sorghum bagasse' by Weixing Cao *et al.*, *RSC Adv.*, 2017, 7, 5701–5707.

In the original manuscript, in Section 2.3 methane production assays, the values given for total solids and volatile solids were incorrect. The relevant sentence should be revised to read "The pH, total solids (TS) and volatile solids (VS) of the inoculum were 8.16, 39.24 g kg⁻¹ and 22.76 g kg⁻¹ fresh weight".

The Royal Society of Chemistry apologises for these errors and any consequent inconvenience to authors and readers.
