Correction for 'Microwave-assisted synthesis of polypyridyl ruthenium(II) complexes as potential tumor-targeting inhibitors against the migration and invasion of Hela cells through G2/M phase arrest' by Jieqiong Cao *et al.*, *RSC Adv.*, 2017, 7, 26625–26632.

The authors regret that Fig. 1 is incorrect in the original manuscript. The transwell result of 5  $\mu\text{M}$  was the same image as the image used for 10  $\mu\text{M}$ . The correct figure is displayed below.

Fig. 1 (A) The wound healing assay of Hela cells after treatment with 4 (0, 2, 4 and 8 mM) and [NAMI-A] = 10 mM. (B) The healing rate of Hela cells treated with 4 and NAMI-A. (C) The transwell assay of Hela cells after treatment with 4 (0, 2, 4 and 8 mM) and (D) [NAMI-A] = (0, 5, 10 and 20 mM).

The Royal Society of Chemistry apologises for these errors and any consequent inconvenience to authors and readers.
