We would like to take this opportunity to thank all of *Chemical Science's* reviewers, and in particular highlight the Outstanding Reviewers for the journal in 2016, as selected by the editorial team for their significant contribution to *Chemical Science*. Starting this year, we will be announcing our Outstanding Reviewers annually and each will receive a certificate to give recognition for their contribution. This new initiative will be featured across many of the journals published by the Royal Society of Chemistry. The reviewers have been chosen based on the number, timeliness and quality of the reports completed over the last 12 months.
