Correction for 'Breath figure in non-aqueous vapor' by Jianyun Ding *et al.*, *Soft Matter*, 2013, **9**, 506–514.

DOI: 10.1039/c7sm90125a

rsc.li/soft-matter-journal

In the original article, an error was made in describing the polymer solution concentration. The sentence beginning “When the polymer solution concentration. . .” should be changed as follows (the change is shown in bold for clarity):

“When the polymer solution concentration is less than **25 mg mL⁻¹**, no regular patterns are formed on the film surface (Fig. S1, ESI†). . .”

A new Supplementary Information file that contains a correspondingly updated caption for Fig. S1 has been uploaded for the original article; this replaces the version originally uploaded on 29th October 2012.

The Royal Society of Chemistry apologises for these errors and any consequent inconvenience to authors and readers.
