The captions of Fig. 6 and 8 contain incorrect citations. The correct figure captions are shown below.

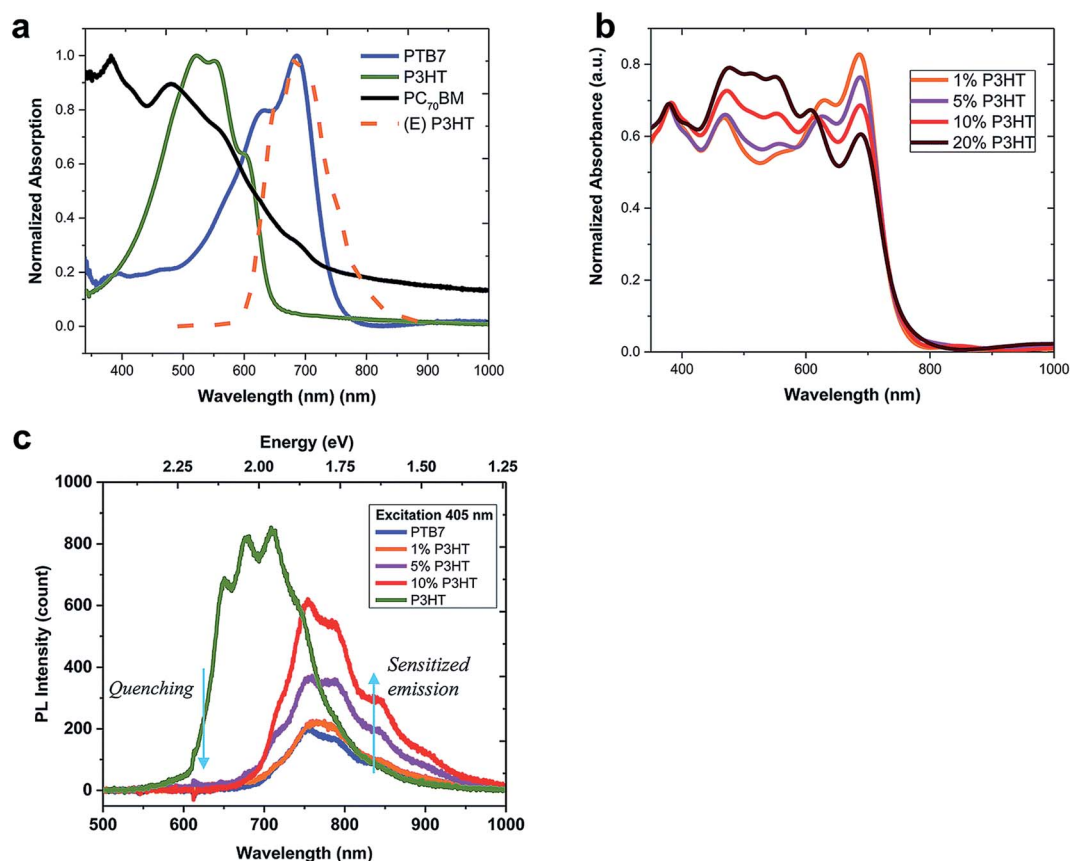

Fig. 6 Optical properties of active components in thin films. (a) Absorption of P3HT, PTB7 and PCBM with an overlay of P3HT emission. (b) Normalized absorption of the ternary films with different loadings of P3HT. (c) PL spectra showing quenching and sensitized emission of the PTB7:P3HT films. (Adapted with permission from ref. 63.
